

Bundled Characterization Solutions from Keithley

An exceptional balance of performance and price for today's measurement and budget challenges!

2600-ACS-PK1

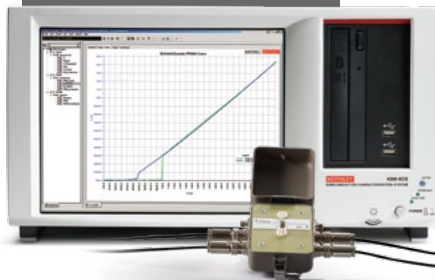

Standard Resolution IV

200V/1.5A, 1fA resolution

...for two and three terminal MOSFET & bi-polar devices and components

- Model 2636A 2-channel SMU
- ACS Basic Edition characterization software
- Test fixture with sample devices
- USB-to-GPIB adapter
- Cables

4200-SCS-PK1

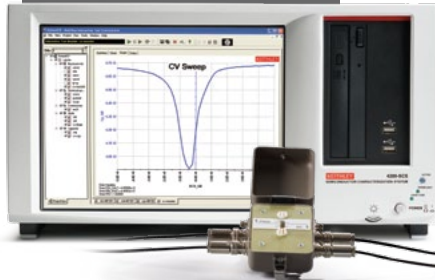

High Resolution IV

210V/100mA, 0.1 fA resolution

...for two and three terminal devices, MOSFET, CMOS characterization

- Model 4200-SCS parameter analyzer
- KTEI test software
- (2) Model 4200-SMU module
- (1) Model 4200-PA preamp
- Test fixture with sample devices
- Cables

4200-SCS-PK2

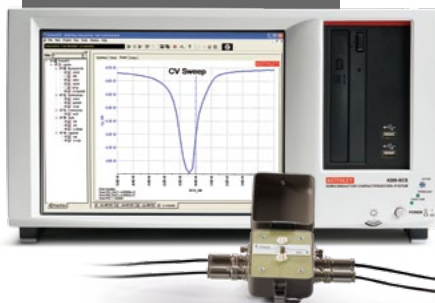

High Resolution IV & CV

210V/100mA, 0.1 fA resolution
1kHz - 10MHz

...for high κ dielectric, deep submicron CMOS characterization

- Model 4200-SCS parameter analyzer
- KTEI test software
- (2) Model 4200-SMU module
- (1) Model 4200-PA preamp
- (1) Model 4210-CVU module
- Test fixture with sample devices
- Cables

4200-SCS-PK3

High Resolution and Power IV & CV

210V/1A, 0.1 fA resolution
1kHz - 10MHz

...for power devices, high κ dielectric, deep submicron CMOS device characterization

- Model 4200-SCS parameter analyzer
- KTEI test software
- (2) Model 4200-SMU
- (2) Model 4210-SMU
- (2) Model 4200-PA preamps
- (1) Model 4210-CVU module
- Test fixture with sample devices
- Cables

Make the biggest impact to capital expenditure – combine the impeccable performance you need with the savings of a bundled solution

For more information on the Model 4200-SCS and Model 2636A packages, please visit: www.keithley.com/bundle/semi
